## Reading Comprehension Worksheet

### Space and Solar System: Venus

After reading the piece carefully, I want to answer the questions. Can you?

### Space and Solar System: Venus

This is Venus and it is the hottest planet in our Solar System. It is almost the same size as Earth. It spins backward, this means the sun comes up in the West and goes down in the East, not like Earth. It is one of the four rocky planets like Mars and Mercury.

Which means you could walk on it. It has lots of very thick clouds which make it so hot it can melt metal. So you really don't want to go there! It is the second planet from the Sun. As the brightest natural object in Earth's night sky after the Moon, Venus can cast shadows and can be visible to the naked eye in broad daylight. It has been made sacred to gods of many cultures, and has been a prime inspiration for writers and poets as the "morning star" and "evening star". Venus was the first planet to have its motions plotted across the sky, as early as the second millennium BC.

#### Can you answer the questions?

1. Where does the Sun come up on Venus?

.....  
.....

2. Which way does the planet Venus rotate? .

.....  
.....

3. What number of planets from the Sun is Venus?

.....

# WILLIAM SHAKESPEARE

William Shakespeare was born in Stratford on April 23rd, 1564. His father, John Shakespeare, was an important man in the town - William didn't come from a poor family.

When he was eighteen, William married Anne Hathaway in Stratford but he didn't want to stay there. He wanted to be an actor and the best theatres were in London. So, in 1587, William went to London, where he worked as an actor in a theatre called The Rose.

He began to write plays for the actors. He wrote *Romeo and Juliet*, *Julius Caesar*, *Richard II*, *Antony and Cleopatra* and many more. Everyone liked his plays, and he became famous.

When James I became king in 1603, Shakespeare worked for him, and performed his plays for the King and his friends. He also worked at the famous Globe Theatre. This play presented his last play, *Henry VIII*. There was a gun in this play, and the fire from the gun burned the theatre down.

In 1610, Shakespeare went back to Stratford. He wanted to live there with his family, but he died on April 23rd, 1610. He was only forty-six years old.
